Full board: extensive breakfast, picnic to put together yourself, 3-course menu.

### The walk

Some experience with mountain hiking and good physical condition are a must.

5 to 6 hours of walking per day, with average elevation gains of 750 metres. A highly varied hike with 5 daily stages, based on the GRP Tour du Val de Méouge, to which we have added a few minor but noteworthy adjustments.

You will walk through changing landscapes and environments. Surprising every time. The route takes you through forests, alpine meadows, hills, lavender fields, over mountain passes (cols) and crosses picturesque villages such as Eourres, Antonavez, Ballons... and the highlight of the trip, Gorges de la Méouge.

The walk is well marked, we will also provide you with a walking map, so you can complete the tour independently. For a voluntary donation, Pache will be happy to accompany you for a day, several days or the entire trip
